

Backpackers / Hostels

Backpackers or Hostels are a cheap, short-term accommodation option. Some places offer single, double and triple rooms, which would be similar to staying in a hotel. Dorm accommodation means several people share one room, sometimes in bunk beds. Males and females are usually in separate rooms.

Backpackers or Hostels usually have shared bathrooms and some have shared kitchen facilities where you can cook your own food. Some places include breakfast in the price of the room. Hostels generally have young people staying in them and mostly these people are travellers from overseas or interstate. If you are from Adelaide, you may not be eligible to stay in some hostels, as they are only for travellers. You can stay in hostels for a maximum of 10 days. If you are concerned about the type of room, ask to look before you pay.
